Icon Fonts

- Set of symbols and glyphs
- Can be used just like regular fonts
- Can be styled with CSS just like regular fonts
- Popular lightweight replacement for simple graphics on the website
- Many icon font packs available

Some Example Icon Fonts

- Glyphicons
 - Included as part of Bootstrap
- Font Awesome
 - Very popular icon font

Using Glyphicons

```
<span class="glyphicon glyphicon-home" aria-hidden="true">  
</span>
```

- A large set of glyphs (250) available in Bootstrap

Using Font Awesome

```
<i class="fa fa-phone"></i>
```

- Include the CSS files and font files into your project

Bootstrap-social

```
<a class="btn btn-social-icon btn-facebook" href="http://  
www.facebook.com/profile.php?id=">  
<i class="fa fa-facebook"></i></a>
```

- Uses Bootstrap and Font Awesome icons to create buttons for social media sites
- Buttons for all popular social media sites
- Include bootstrap-social.css into your project

Exercise: Navbar

- Create a navigation structure for your website using the Navbar
- Use icons within your website to represent various entities making use of the glyphicons, font-awesome icons and bootstrap-social icons
- Include additional CSS classes into your project
